# ABOUT US

At MYSA, we believe that great design lives in the details.

We craft outdoor furniture that's as strong as it is stunning—pieces that bring effortless elegance and comfort to any space, be it a breezy terrace, a sunlit patio or a cozy indoor corner. But our story doesn't end with furniture.

We go beyond, offering a thoughtfully curated range of:

- **Architectural Lighting:** Custom-designed to suit your mood and setting—whether you prefer warm, ambient glows or bold, sculptural statements. We work closely with you to select finishes, forms and tones that complement your space.

- **Elegant FRP Pots:** Lightweight, durable and endlessly customizable in texture, finish, shape and size. Whether you're looking for minimal modern silhouettes or earthy, rustic charm, we tailor-make pieces to match your landscape or interiors.

- **Cozy Custom Rugs :** From hand-tufted to hand-knotted, our rugs are designed with your space in mind. Choose your colours, materials, shapes and sizes—our design team will work with you to bring your perfect rug to life.

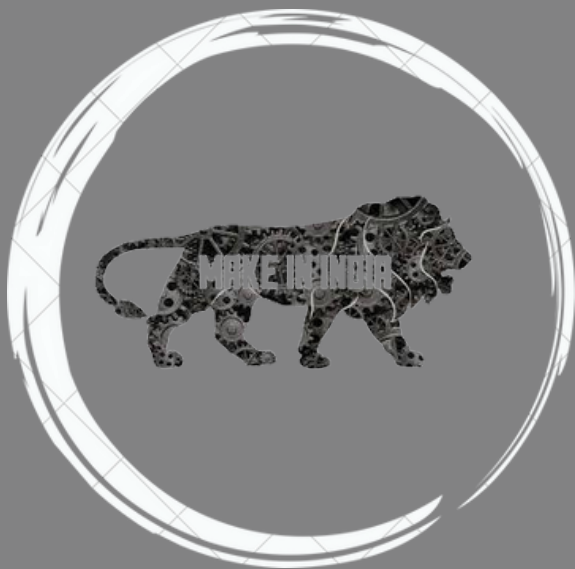

A Women-led, Make in India brand with a global soul.

At **MYSA**, we pride ourselves on blending the finesse of international standards with the heart of Indian craftsmanship. Every piece we create is a collaborative masterpiece—designed with care, made with love and tailored just for you.

We don't believe in one-size-fits-all. We believe in just right.

Whether it's statement furniture, mood-setting lighting, stylish pots or bespoke rugs—MYSA is here to help you shape spaces that reflect your unique style and spirit.

## **FRP Planters – Durable, Stylish & Customizable**

Crafted from a high-quality blend of fiberglass and resin, our FRP planters are designed for exceptional strength, weather resistance and longevity. For enhanced durability, we reinforce them with a metal insert.

Lightweight yet sturdy, these planters are crack-resistant and fully customizable in a variety of shapes, sizes and finishes.

Precision-molded for a flawless form, each planter undergoes meticulous sanding and is coated with a UV-resistant finish to ensure a smooth, fade-proof surface.

Ideal for both indoor and outdoor spaces, our FRP planters seamlessly combine durability, style and versatility to elevate any setting.
